

## **Dignity and Respect**

### Valuing All God's Children

Our commitment to the dignity and ultimate worth of each child is rooted in each being created in the image of God and the vision that '[inspires] us to grow into the people God is calling us to be'. As a result of this, safeguarding and health and safety have a high profile at ACE. The school follows policies in Safeguarding, Equal Opportunities, Special Educational Needs and Anti-Bullying in order to ensure that the dignity of the child is always at the heart of all that we do.

The curriculum at ACE has a focus on creating opportunities for children to understand and celebrate the diverse culture in which we live. We have invested in links to a school in London and regularly take part in trips to other places of worship in order that the children may have opportunities to develop their cultural capital.
